CPDLab

Teacher professional development for the digital age

Would you like to:

- ▶ Make better use of technology in the classroom?
- ▶ Engage students with technology to improve results?
- ▶ Explore possibilities in a fully equipped Future Classroom Lab?

Come on a training course developed by the EC-funded CPDLab project, offering courses in:

- ▶ Interactive Whiteboards - Pedagogical use of IWBs in the classroom;
- ▶ eSafety - eSafety in everyday teaching and learning;
- ▶ Future Classroom Scenarios - Teaching and learning activities for the future classroom.

CPDLab training courses for secondary schools

Professional development for today's teaching challenges and the classrooms of the future

- ▶ Modular training courses to suit the needs of teachers, teacher trainers, school management and policy makers.
- ▶ Delivered from the Future Classroom Lab, Brussels, a fully equipped and reconfigurable teaching and learning space developed by European Schoolnet.
- ▶ Participation grants may be available through the European Commission's Comenius/Grundtvig in-service training database, or through the Commission's eTwinning network for some courses.
- ▶ To download the CPDLab training course catalogue and to register your interest, see <http://cpdlab.eun.org>
- ▶ To find out more information on Future Classroom Lab training activities, see <http://fcl.eun.org/training>

The CPDLab project is partly financed by the European Commission's Lifelong Learning Programme
